**SUPREME COURT OF THE STATE  
OF WASHINGTON**

Case No.

**SEIU HEALTHCARE 775NW,**

Petitioner,

v.

**GOVERNOR CHRISTINE  
GREGOIRE,**

Respondent.

**[PROPOSED] WRIT OF  
MANDAMUS AGAINST  
GOVERNOR CHRISTINE  
GREGOIRE**

Pursuant to RAP 16.2, this Court hereby GRANTS SEIU Healthcare 775 NW's Petition and issues this Writ of Mandamus against Christine Gregoire, Governor of the State of Washington.

By failing to include a request for funds and the legislation necessary to implement the collective bargaining agreement reached through the collective bargaining and interest arbitration process under RCW 74.39A. *et seq.* the Governor has failed to perform an act required by law. This omission inflicts a real and substantial injury to the Petitioner, which is beneficially interested in this matter, in that its statutory right to have its collectively bargained agreement with the State presented to the Legislature through a properly submitted request for funds and authorizing legislation has been denied.

No plain, speedy and adequate remedy in the ordinary course of law is available to Petitioner.

Accordingly, the Writ of Mandamus shall issue herein. Respondent is hereby ordered to submit within ten days of this Order a revised balanced budget to the Legislature that includes funding and the necessary legislative authorization for the collective bargaining agreement

between the State and SEIU Healthcare 775 NW, which was the product of an arbitration award.

Dated this \_\_\_\_ day of \_\_\_\_ 2009.
